Environmental Solutions.
Redefined.

2023 North American Mine Ventilation Symposium

About Us

Conifer Systems designs, manufactures, installs and services state-of-the-art emissions control systems. We have delivered 500+ environmental solutions since 2004, helping companies across all industries to achieve their environmental goals.

Conifer Systems is a wholly-owned subsidiary of Archaea Energy, which was acquired by bp in December 2022. We design and manufacture environmental solutions in Houston, Texas.
